DETAILED ACTION

Election/Restrictions

The election of species of record is maintained for the reasons of record. Since applicant cancelled claim 51, the elected composition now reads on lipase associated/complexed with oleic acid, an anionic surfactant and a microemulsion surfactant.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-13, 15-17, 49 and 50 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear what is meant by, "clear aqueous microemulsion of a complex".

What does this mean ? A complex ? Is this not a composition ?

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-13, 15-17, 49 and 50 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP 08283787 (JP '787), JP 363191802 (JP '802), or JP 05168480 (JP '480) taken with JP 57063086 (JP '086), Tcheou et al., Menke et al., Poulouse et al., or Blount et al. ; Bacon et al., Murch et al., or Connor et al. ; Schalitz et al. ('874), Coleman, Kelly et al., or Schalitz et al. ('137) ; and Nerud et al., JP 02092281 (JP'281), JP 402092281 (JP '281), or Kirk et al.

Applicant argues that the references cannot teach that the existence of separate components useful in detergents (same purpose) would suggest their combination for detergents or any other detergents.

Applicant is reminded of the case law.

It is well known that it is *prima facie* obvious to combine two or more ingredients each of which is taught by the prior art to be useful for the same purpose in order to form a third composition which is useful for the same purpose. The idea for combining them flows logically from their having been used individually in the prior art. *In re Sussman*, 1943 C.D. 518; *In re Pinten*, 459 F.2d 1053, 173 USPQ 801 (CCPA 1972); *In re Susi*, 58 CCPA 1074, 1079-80; 440 F.2d 442, 445; 169 USPQ 423, 426 (1971); *In re Crockett*, 47 CCPA 1018, 1020-21; 279 F.2d 274, 276-277; 126 USPQ 186, 188 (1960).

Thus, the examiner must disagree with applicant's assessment of the patent law. There is clear teachings in each of the references to use them individually in the art for

Art Unit: 1654

the same purpose, thus putting them together for a combined composition would be obvious.

Next applicant argues that there is no teaching that has been pointed out by the office that in any of the references there is a complex of the type set forth in the claims that has been diluted to a clear aqueous microemulsion.

First of all, the combined references are very clear that they contain the same ingredients as applicants and are aqueous. Secondly, there is nothing in the body of applicants' claims which states that the microemulsion is clear and aqueous only in the preamble.

The references teach using the same ingredients for the same purpose. The claims are directed to a composition containing certain components. The references teach the components, thus they teach the same composition as claimed by applicant.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
